

Profile Machine Learning Expert

We, a startup based in Vienna with strong ties to Silicon Valley, are looking for a machine learning expert (m/f/d). The expert will work as part of a small, top notch team comprised of highly skilled and highly motivated developers. The tasks focus on the development of a predictive machine learning model together with fellow experts.

Duration: 3 months (extension possible, in case a second project phase is launched).

Contract type: external (“Werkvertrag”)

Location: Vienna (office space available, high degree of remote working possible)

Language skills

- proficiency in German or English (either language is fine)

Required soft skills:

- Self-organized: can independently work towards agreed goals, meets the commitments that he/she made.
- Is willing and able to work in diverse teams.
- Can work remotely or on premise, as the situation requires.

Required hard skills:

- Strong practical background in machine learning.
- Practical experience with python and pytorch.
- Sufficient theoretical background on machine learning to develop viable working hypotheses on how to build and train machine learning models.
- At least basic understanding of predictive Machine Learning.
