

Description of Qualifications Within the Scope of Admission to the Master's Programme Computer Science

Admission to the Master's Programme Computer Science requires computer science core competencies of min. 90 ECTS. Please describe your qualifications and interests according to the following items in three separate sections:

1. Produce a table with the computer science courses you passed and make sure you include their ECTS credits. Show that you meet the 90 ECTS requirement.
2. Argue why your completed degree programme and professional activities qualify you for a MA Computer Science programme (consider as reference for qualification the Bachelor's degree programme BA Computer Science at the University of Vienna).
3. Give us an idea with which research groups you'd be most interested in collaborating (for, e.g., the practical courses), and let us know why. Thank you!

File format, formatting, and submission:

- * PDF file,
- * 11pt, single-spaced, max. 3 pages

Description of qualifications is based on the Curriculum für das Masterstudium Informatik (Version 2022), Mitteilungsblatt der Universität Wien, 44. Stück, 24.06.2022, Nr. 232.
